

To whom it may concern

In connection with the adoption by the EU countries of the 10th package of sanctions against the Russian Federation, the requirements for shipments from the EU to the republics of Central Asia, following in transit through Russia, have become stricter. The goods provided by you for transportation to SILVIROM LTD should not be subject to sanctions imposed by the EU and the USA (and other involved parties) against Russia, in order to avoid the delivery of sanctioned goods to Russia through third countries, bypassing existing sanctions, and as well as individuals and entities listed in these sanctions, from anywhere in the world. In particular, for transport from Latvia, each shipment must be agreed and approved by the strategic department of the customs of the Republic of Latvia. In witness whereof, commercial documents must contain the following annotations:

- *The goods are not included in the dual use list, are not intended for military purposes, are not addressed to individuals and entities listed in sanctions. The product is intended for use exclusively on the territory of the Republic of (please mention the State goods addressed to). Re-export to third countries is prohibited.*

In addition, it is necessary to provide the registration documents of the consignee in order to identify the final beneficiaries and check them for involvement in the sanctions lists.

NB! Separately, we draw your attention to the fact that the responsibility for the accuracy of the information provided lies with you, and the data provided does not give a 100% guarantee for execution of transport. In the event that claims and charges are made by the authorities supervising compliance with the sanctions, these claims and charges will be forwarded to your company.

Kind regards
